

# King County CSO 5-Year Update

## Task 4.0 Development of Alternatives

Brown & Caldwell, K C M,  
Herrera Environmental Consultants and Associated Firms

December 1997

---

## CONTENTS

Executive Summary .....	vii
Alternatives Development .....	vii
Basis of Sizing and Cost Estimating.....	viii
CSO Control Project Impacts .....	ix
Other Issues .....	x
Introduction.....	1
RWSP Cross Reference .....	3
Hydraulic Analysis.....	5
King County Hydraulic Model .....	5
West Point Peak Flow Set Point.....	5
State of Washington CSO Control Regulation Projects .....	6
Federal CSO Policy Control Projects .....	6
Onsite CSO Treatment.....	9
Cost Development.....	13
Component Cost Estimating.....	13
Partial Separation Cost Estimates.....	14
CSO Control Elements: Implementation and Impact .....	17
Alternatives Development .....	19
Duwamish CSO Control Alternatives.....	21
Storage in the Duwamish.....	21
Separation and Storage in the Duwamish Area .....	26
Onsite CSO Treatment.....	27
Local Onsite CSO Treatment Siting Issues.....	29
Flow Transfer to EDRP at Renton (Southern Transfer) .....	29
Denny/Lake Union CSO Control Alternatives .....	31
Centralized Duwamish Area CSO Treatment.....	33
Assumptions .....	33
West Seattle and Alki CSOs .....	33
CSO Treatment Facilities.....	33
Effluent Disposal.....	35
CATAD Operations .....	35
CSO Treatment in Conjunction with Secondary Treatment (Task 5 Group 3b) .....	35
CSO Treatment Only at Duwamish (Task 5 Group 3c).....	37
Southern Service Area Deep Tunnel Storage Alternatives.....	41

---

South Magnolia CSO Control Alternatives .....	43
Storage Alternative .....	43
Rooftop Separation Alternative .....	43
North Interceptor Basin.....	47
Deep Tunnel Storage for University, Montlake and 3 <sup>rd</sup> Avenue West .....	47
Storage Tank Alternatives .....	51
University and Montlake.....	51
3rd Avenue West.....	57
11 <sup>th</sup> Avenue NW.....	58
Ballard Regulator .....	59
North Interceptor CSO Treatment Alternatives.....	60
Partial Separation Alternatives .....	61
University/Montlake .....	61
Ballard and 11 <sup>th</sup> Avenue NW (Ballard Basin).....	62
Alki Basin .....	65
Partial Separation.....	65
Offline Storage.....	65
Offline Storage with Pump Station.....	66
Parallel Conveyance System.....	66
Building Sewer Rehabilitation and Roof Drainage Separation .....	68
West Seattle Basin .....	69
Harbor Regulator CSO Control Alternatives.....	69
Conveyance/Storage Alternative.....	69
Separation.....	69
Chelan Regulator CSO Control Alternatives.....	71
Storage in Conjunction with Alki Tunnel .....	71
Storage in Separate Tank .....	71
Refinements.....	73
8th Avenue South Regulator CSO Control Alternative.....	73
West Michigan Regulator .....	75
Terminal 115.....	75
Norfolk Basin.....	81
Martin Luther King Way Overflow .....	82
Storage Alternative.....	82
Separation Alternative.....	82
South Henderson Street Pump Station CSO Control Alternatives .....	82
Storage Alternative.....	84
Weir Adjustment Alternative .....	84
Separation Alternative.....	84
Norfolk Regulator CSO Control Alternative .....	84
Norfolk Project Combinations and Cost Estimates .....	86

---

North Beach Pump Station.....	89
CSO Control Impact at West Point and West Point Enhancements .....	91
Additional Issues and Projects .....	93
Ongoing Costs Associated with Sewer Separation Projects.....	93
Impact of Garbage Grinders on CSO Projects.....	93
Roof Drain Disconnection .....	93
East Bay Municipal Utilities District (EBMUD), California.....	94
Nashville, Tennessee .....	95
Vallejo, California.....	95
North Tahoe Public Utility District, California.....	95
Tacoma, Washington.....	96
Portland, Oregon .....	96
Scarborough, Ontario, Canada .....	96
Macomb County, Michigan .....	97
Modifications in Street Cleaning Practices.....	97
West Point Bypass as a CSO Discharge Location.....	98
West Point Secondary Clarifiers used for CSO Treatment.....	99
Seasonal Discharge to the Duwamish River.....	100
New Technologies .....	101
Vortex Separators.....	102
Microsep or Actiflo .....	102
Fine Screens .....	102
Direct Filtration.....	103
Dissolved Air Floatation .....	103

Appendix A	Duwamish Basin CSO Control Alternatives
Appendix B	South Magnolia CSO Control Alternatives
Appendix C	North Interceptor CSO Control Alternatives
Appendix D	Alki Basin CSO Control Alternatives
Appendix E	West Seattle CSO Control Alternatives
Appendix F	Norfolk Basin CSO Control Alternatives
Appendix G	North Beach Pump Station Overflow Control
Appendix H	Metro CSO 5-Year Update— Potential Joint Metro/City of Seattle CSO Projects (Task 4.05 Project)
Appendix I	Metro CSO 5-Year Update—Separation Alternatives, Denny Regulator Station
Appendix J	Metro CSO 5-Year Update—Transportation-Related Risk of Spills
Appendix K	Metro CSO 5-Year Update—Separation Alternative, Ballard Regulator

---

## TABLES
